Field Operations

Mid Valley Pipeline Spill Update for 10/23/2014

- There are 278 personnel working the response. An additional 50 personnel will be in the field tomorrow in areas of standing oil.
- EPA has 2 personnel, 4 contractors, a boat and a mobile command post on scene.
- 2829 bbl. of crude oil has been recovered
- 2321 bbl. of the recovered crude oil has been transported off-site and recycled at Sunoco's Haynesville Station, in Haynesville, LA.
- No impacts to Caddo Lake have been observed
- Wildlife rehabilitation efforts continue. So far, 23 animals have been cleaned, 13 animals released and 452 animals have been found dead.
- The UC continues to work on a contingency plan to establish steps to be taken if oil impacts

9559203

Caddo Lake

- The pipeline spill origin point has been excavated, isolated and wrapped in preparation for removal under the supervision of PHMSA. The new section of the pipe has been installed and testing will be done over the next few days.
- Media interest remains low.
